Bell Forest (2003)	138 acres	Patterson (2009)	27 acres
Weston Property (2007)	1 acre	Valley Equipment (2010)	13 acres

2004 NB Environmental Leadership Award Recipient

LIVING LEGACY

As of 2009 the Meduxnekeag watershed was designated one of six priority conservation areas in Atlantic Canada by Nature Conservancy of Canada. With this endorsement, the Nature Conservancy of Canada, via the Government of Canada's Natural Areas Conservation Program, the Meduxnekeag River Association Inc. will be able to protect even more strategic eco-regionally significant habitats as part of the Meduxnekeag Valley Nature Preserve.

In all of Atlantic Canada there is only 1% of the mature pre-settlement Appalachian Hardwood Forest, 45% of which is in the Meduxnekeag watershed. The Meduxnekeag River Association Inc. has expanded its preservation areas to aid in the protection of this local watershed. We are now working on expanding these preservation areas even further. The protected areas currently stand at 499 acres. The Meduxnekeag River Association is a model for land conservation and environmental education in Atlantic Canada.

The “**LIVING LEGACY**” campaign has been launched to raise One Million Dollars to grow our nature preserve system. We are asking you to make a donation to this important initiative. With your help and our partnership with the Nature Conservancy of Canada we will protect this ecologically significant area for generations to come.

***The Meduxnekeag River Association Inc.
appreciates your ongoing support.***

Yes, I will make a pledge to the “**LIVING LEGACY**” Campaign
